AEROMARITIME GROUP

Training Solutions

TRAINING LEVELS

- Administrator Training
- Maintainer Training
- Operator Training

TRAINING MODULES

- Integrated Communications Systems (ICS)
- Identification Friend or Foe (IFF)
- Military Message Handling Systems (MMHS)
- Multifunctional Submarine Antenna Systems
- Troubleshooting, Fault Detection and Correction

Training Solutions

Aeromaritime Group has extensive experience in the development and delivery of training solutions for operators, maintainers (Level 1–4), and administrators of naval communication systems.

In close co-operation with end users, Aeromaritime Group provides training for operators, maintainers, and administrators across a wide range of communication systems and products, supporting mission goals and operational requirements. In addition, Aeromaritime Group training courses equip personnel on board ships, submarines, and in depots with the knowledge required to assume responsibility for communications system and network administration.

Training options include:

- Tailored training solutions, including documentation adapted to customer needs
- Classroom-based equipment and system training courses
- Operator, maintainer, and on-the-job administrator programs
- Development of customized training facilities and training sets

Aeromaritime Group training programs ensure the competent and responsible use of communication systems in daily operations. Training content is structured to be efficient and effective, without overloading participants. Direct communication with our engineering team enhances responsiveness and enables rapid clarification of technical questions during training sessions.

TRAINING TOPICS

- **Communication Networks**
  APCOS®4000, COSYMA (Communication Management Systems)
- **Military Message Handling System (MMHS)**
  SAMMS®7
- **Multipurpose Submarine Antenna Systems**
- **Identification Friend or Foe (IFF) Systems**
- **External Communication Systems**
  Modems
- **Global Maritime Distress and Safety System (GMDSS)**
- **Internal Communication Systems**
  PA/GA Systems, Sound-Powered Telephone (SPT)
- **Power Management Systems**
  Uninterruptible Power Supply (UPS), Power Distribution
